Future Trends in Biomaterials and Devices for Cells and Tissues

Guest Editors:

Dr. Loredana De Bartolo

CNR- Istituto per la Tecnologia delle Membrane, Rende, Italy

Dr. Antonella Piscioneri

National Research Council of Italy, Institute on Membrane Technology, CNR-ITM, via P. Bucci, cubo 17/C, I-87036 Rende, CS, Italy

Prof. Dr. Seeram Ramakrishna

Department of Mechanical Engineering, National University of Singapore, Singapore 119077, Singapore

Deadline for manuscript submissions:

closed (27 February 2024)

Message from the Guest Editors

Research strategies are focusing on new bioinspired approaches for the design of biomaterials and devices to be used for repairing and/or regenerating tissues and organs as well as for creating in vitro physiologically relevant models. More importantly, biomaterials can be designed to exhibit ECM micro- to nanoscale of chemistry and topography providing physical, chemical, and mechanical signals to the cells that generate the appropriate responses for the formation of a new organ or tissue.

This Special Issue aims to enphasize current advances in bioinspired/biomimetic materials and devices providing insights into how they can be translated into cutting-edge biomedical applications.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences, Sez-Biochimica, Faculty of Medicine, Università Politecnica delle Marche, Via Ranieri 65, 60100 Ancona, Italy

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
