

Biologically Active Substances in Cardiovascular and Neurological Diseases (Volume II)

Guest Editors:

Prof. Dr. Ok-Nam Bae

College of Pharmacy, Hanyang
University, Ansan, Republic of
Korea

Prof. Dr. Arshad Majid

Sheffield Institute for
Translational Neuroscience,
University of Sheffield, Sheffield,
UK

Prof. Dr. G. K. Rajanikant

School of Biotechnology,
National Institute of Technology
Calicut, Calicut, India

Deadline for manuscript
submissions:

closed (31 December 2021)

Message from the Guest Editors

The number of studies on naturally occurring bioactive substances has risen exponentially in recent decades, especially regarding their protective effects against oxidant stress or inflammatory signalling, which are the common underlying mechanisms for various chronic diseases, including cardiovascular and neurological diseases. This Special Issue will cover a selection of research papers and reviews that expand knowledge about the potential of naturally occurring bioactive compounds in health and chronic diseases, specifically focusing on the cardiovascular and neurological diseases. We also welcome studies on the elucidation of bioactive mechanisms of natural products against these diseases, enhancement of bioactivity via pharmaceutical formulation or derivatisation of known bioactive substances, as well as on the identification of novel bioactive compounds.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Maurizio Battino

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
