Deadline for manuscript  
submissions:

**closed (30 November 2022)**

### Message from the Guest Editor

Of all the tumors, skin cancers are extremely sensitive to immunotherapy. Immunotherapy is the use of agents to stimulate a person's own immune system to recognize and destroy cancer cells very effectively. It can be used to treat both melanoma and non-melanoma skin cancers. Despite the rise in the incidence on skin cancer, immunotherapy brings a lot of promise.

This special issue is expanding the current knowledge on immunoprevention and immunotherapy for management of melanoma and non-melanoma skin cancers. Experimental studies in in vivo models, review articles are all welcome for publication.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
