### Message from the Guest Editor

Dear Colleagues,

I am very pleased to invite you to submit your contributions to this Special Issue of the *International Journal of Molecular Science*, which is focused on a molecular perspective of reproductive health. Reproduction, as with any other physiological function, is molecular based, and its comprehension will result in a better understanding of the mechanisms behind it. A better understanding of its molecular functioning may supply tools that could be useful in the diagnosis, treatment, and prognosis of reproductive pathologies, thus improving the clinical approach and, in turn, providing better solutions to the patients.

## Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
