

Natural Products in Diabetes: From Molecular Mechanisms to Novel Therapeutic Approaches

Guest Editor:

Dr. Youhua Xu

Faculty of Chinese Medicine and
State Key Laboratory of Quality
Research in Chinese Medicine,
Macau University of Science and
Technology, Avenida Wailong,
Taipa, Macao, China

Deadline for manuscript
submissions:

31 August 2024

Message from the Guest Editor

This Special Issue invites original research articles, reviews, and clinical study reports. The topics of interest include, but are not limited to, the following:

- Bioactive compounds from natural sources with potential anti-diabetic properties.
- Experimental and clinical studies investigating the efficacy and safety of natural products in diabetes intervention.
- Mechanistic studies elucidating the pathways and targets involved in the anti-diabetic action of natural products.
- Exploration of natural products in the prevention of diabetes-related complications.
- Studies on formulation and development of natural-product-derived anti-diabetic drugs.

This Special Issue also encourages submissions that discuss the challenges, such as standardization and quality control, bioavailability improvement, and regulatory aspects, in translating the traditional use of these natural substances into evidence-based medicine.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of
Odontostomatologic and
Specialized Clinical Sciences,
Sez-Biochimica, Faculty of
Medicine, Università Politecnica
delle Marche, Via Ranieri 65,
60100 Ancona, Italy

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
