Message from the Guest Editor

Dear Colleagues,

Over the last decade, research regarding topics related to DNA methylation has been developing and expanding. Currently, a description of cellular state is not complete without the complete characterization of the epigenome, of which the most commonly studied and most important aspect is DNA methylation. To advance the field even further, we offer this Special Issue in *IJMS*, which will collect original research papers and reviews in topics related to DNA methylation and the development of related research.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Maurizio Battino

Odontostomatologic and
Specialized Clinical Sciences,
Sez-Biochimica, Faculty of
Medicine, Università Politecnica
delle Marche, Via Ranieri 65,
60100 Ancona, Italy

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
