Deadline for manuscript
submissions:

31 May 2024

Message from the Guest Editor

Dear Colleagues,

Immune Thrombocytopenia (ITP) is an autoimmune disorder, which is based on first discarding other conditions that could be associated with thrombocytopenia.

Given the growing interest in ITP disease, the *International Journal of Molecular Sciences* is launching this Special Issue.

We encourage you and your co-workers to submit articles reporting on ITP. Reviews or original articles dealing with different aspects of molecular biology and ITP: usefulness of molecular techniques for diagnosis, genetic susceptibility to develop ITP, refractoriness to treatment with current drugs used for this disease, usefulness of molecular biology as predictors of response or as markers of interruption of TPO-RAs are just some of the possible targets of this Special Issue.

In addition, we warmly invite you to submit articles reporting on less frequent types of ITP, e.g., ITP secondary to autoimmune or infectious diseases and lymphoproliferative disorders, drug-induced ITP, etc., and their potential molecular insights.

We look forward to receiving your contributions and realizing an interest in completing this Special Issue!

Dr. Tomas Jose Gonzalez-Lopez

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
