

Recent Advances and Techniques for the Vascularization of Tissue Engineering Constructs

Guest Editors:

Dr. Rogério P. Pirraco

3B's Research Group, I3Bs–
Research Institute on
Biomaterials, Biodegradables
and Biomimetics, University of
Minho, Guimarães, Portugal

Prof. Dr. Rui L. Reis

Deadline for manuscript
submissions:

20 April 2024

Message from the Guest Editors

Vascularization is a critical step when engineering functional tissue constructs. To ensure adequate perfusion of thick engineered tissues after transplantation is essential to allow not only their survival but also their intended function and, ultimately, integration with the host tissue. Many strategies have been put forward to overcome this problem. In vitro prevascularization is by far the most explored strategy but issues related with cell sourcing and potential regression of the prevascular network remain. This collection intends to bring into view the latest developments related with vascularization in the Tissue Engineering field.

Research articles, review articles as well as communications are invited.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of
Odontostomatologic and
Specialized Clinical Sciences,
Sez-Biochimica, Faculty of
Medicine, Università Politecnica
delle Marche, Via Ranieri 65,

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
