# **Wound Healing and Hypertrophic Scar**

Guest Editor:

## **Dr. Cheong Hoon Seo**

Department of Rehabilitation Medicine, Hangang Sacred Heart Hospital, Hallym University, Seoul 07247, Republic of Korea

Deadline for manuscript submissions:

closed (15 April 2024)

## Message from the Guest Editor

Hypertrophic scar is the most common complication of burn injury. Scars develop in wound healing. Wound healing and hypertrophic scars involves complex biological processes, and the exact mechanisms remain to be fully elucidated. Scar management is a major goal of rehabilitation. To achieve this goal, it is necessary to deeply understand the relevant clinical, histopathological, and molecular feature of scars and to understand how these manifestations relate to each other.

This Special Issue will cover a selection of recent research topics and current review articles in the field of scar research in wound healing and all kinds of tissues. Experimental papers, up-to-date review articles, and commentaries are all welcome

## **Editor-in-Chief**

#### Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences, Sez-Biochimica, Faculty of Medicine, Università Politecnica delle Marche, Via Ranieri 65, 60100 Ancona, Italy

## Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
