Deadline for manuscript  
submissions:

**closed (30 November 2010)**

### Message from the Guest Editors

Dear Colleagues,

Nature is unquestionably the pre-eminent chemist. One must only consider the myriad chemical reactions and non-covalent interactions that are ongoing simultaneous with exquisite control in both space and time to be awe inspired. A large number of chemists and biochemists are involved in the dissection of these complex biological systems by understanding the precise chemical behavior of each Natural component. Another segment of the chemical and biochemical community aims to apply the understanding of natural systems to create man-made molecules, materials, machines, and systems with complex structure and function. This special issue is dedicated to the chemistry of such biomimetic systems at the molecular, macromolecular, and materials levels. As such this special issue encompasses a broad range of topics of contemporary interest in chemistry.

Prof. Dr. Lyle Isaacs

Prof. Dr. Kwang J. Kim

## Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
