Deadline for manuscript  
submissions:

**closed (30 September 2022)**

### Message from the Guest Editor

Dear Colleagues,

We would like to invite you to contribute to a Special Issue on the topic of the cGAS-STING innate immunity pathway. The regulation of innate immunity is essential for host defence against viral, bacterial and mycotic infections, but may also play a role in allergic diseases. It would be of particular interest to obtain more detailed information regarding how pattern recognition receptors (DAMP and PAMP) interfere with or regulate cGAS-STING signalling and the innate immune response. Another point of interest is the existence of possible feedback mechanisms between the innate immune system and cGAS-STING signalling. This Special Issue will accept reviews and original research articles.

Prof. Dr. Michael Roth

## Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
