Deadline for manuscript
submissions:

closed (30 July 2022)

Message from the Guest Editor

Dear Colleagues,

Recently, there has been a rapid expansion of knowledge in both health and the clinical approach to erythrocyte-related diseases. Long assumed to be inert oxygen carriers, red blood cells (RBCs) are emerging as important modulators of the innate immune response. Furthermore, novel red blood cell functions, blood bank storage methods, and RBC-based therapies are in development. We are pleased to invite you to contribute original articles, communications, and reviews covering the entire field of RBC research, including (but not limited to):

Red blood cell (RBC) aging;

Pathological RBCs;

Immunological aspects of RBCs;

Blood bank storage;

RBC and vascular function;

The use of RBCs as drug carriers or biomarkers.

We look forward to receiving your contributions.

Prof. Dr. Francesco Misi

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
