2. Centro Ecotekne via Provinciale Lecce Monteroni, 73100 Lecce, Italy

Deadline for manuscript submissions:

closed (31 December 2019)

Message from the Guest Editors

In recent years, heavy metals have been widely used in agricultural, chemical, domestic, and technological applications causing environmental and soil contaminations. Heavy metals enter the plant system through soil or via the atmosphere and can accumulate, affecting physiological processes; plant growth; yield; and human health if heavy metals are stored in edible tissues. Understanding the regulation mechanisms of plant heavy metals accumulation and partitioning is important to improve the safety of the food chain.

This Special Issue aims to explore three main issues:

- (1) The accumulation and partitioning of heavy metals in crops and wild plants;
- (2) The toxicity and molecular behaviours of cells, tissues, and their effects on physiology and plant growth;
- (3) Detoxification strategies, plant tolerance, and phytoremediation.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Maurizio Battino

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
