Saxony, Germany

Deadline for manuscript
submissions:

closed (31 March 2022)

Message from the Guest Editor

Possible associations between imaging and histopathology features are identified due to deeper understanding of tumors by imaging modalities and analyses methods.

There is no doubt that clinical translation of these novel techniques will be achieved soon.

In this Special Issue, we aim to highlight recent advances in the context of Radiomics to predict prognostic informations of tumors and to elucidate possible associations between imaging and histopathology. Papers investigating these novel aspects of oncologic imaging are welcomed in this Special Issue.

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
