submissions:

closed (31 October 2022)

Message from the Guest Editors

Dear Colleagues,

The 6th Midwest Single Molecule Workshop (<https://www.unmc.edu/msmw/index.html>) continues the tradition of previous workshops by gathering the leading experts and researchers in single-molecule biophysics from across the Midwest and surrounding areas to share their latest research, discoveries and ideas as well as communicate with peers involved in single molecule studies.

This two-day meeting will feature a wide variety of topics and presenters, including invited lectures, poster presentations, short talks and a keynote address. We hope to cover all aspects of single molecule biophysics, including experimental and theoretical approaches and the application of these methods to single molecule studies ranging from isolated individual molecules to whole cells.

In addition, for this 6th Workshop attendees are encouraged to submit their findings to this Special Issue in the *International Journal of Molecular Sciences* (<https://www.mdpi.com/journal/ijms>). Every attendee will receive a substantial discount for submissions to this Special Issue.

We look forward to receiving your submission.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
