Deadline for manuscript
submissions:

closed (31 August 2019)

Message from the Guest Editor

This Special Issue should contribute to the literature by filling the existing void and expanding knowledge in the field of the implementation of emerging technologies into public administration with effects on the governance model of a smart city. These emerging technologies can come from different fields and can have an impact on the improvement of transparency, the efficiency of public services or, for example, on the governance systems of smart projects such as smart environmental projects (sustainability) or projects on smart mobility into a municipality. Studies of the organizational issues that arise due to these new technological implementations, or of the implementation of emerging technologies in smart communities are also welcome in the Special Issue. Therefore, I encourage authors to submit their original research articles, work in progress, surveys, reviews, and viewpoint articles in this field

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Informatics (ISSN 2227-9709) is an international, peer-reviewed, open access journal, which publishes original theoretical and empirical work on the science of informatics and its application in multiple fields. Our concept of Informatics includes technologies of information and communication as well as the biological, social, linguistic and cultural changes that initiate, accompany and complicate their development.

Informatics publishes regular research articles, reviews and short notes. There is no restriction on the length of papers, and we encourage researchers to publish their theoretical and empirical results in as much detail as possible. The scientific community and the public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), dblp, and other databases.

Journal Rank: CiteScore - Q1 (*Communication*)
