Advances in AI for Health and Medical Applications

Guest Editors:

Dr. Sidong Liu
Centre for Health Informatics, Macquarie University, Sydney, NSW 2019, Australia

Dr. Cristián Castillo Olea
School of Medicine and Psychology, Autonomous University of Baja California, Mexicali 21100, Mexico

Dr. Shlomo Berkovsky
Centre for Health Informatics, Macquarie University, Sydney, NSW 2019, Australia

Deadline for manuscript submissions:
closed (15 December 2023)

Message from the Guest Editors

Special Issue "Advances in AI for Health and Medical Applications" has been OPEN!

This Special Issue is concerned with groundbreaking topics on recent advances in AI for health and medical applications. The areas of interest include (but are not limited to):

- Applications of AI in healthcare;
- Clinician interaction with AI;
- AI-augmented decision support;
- Trust and automation bias in medical applications;
- AI-powered behavioural change support systems;
- AI and HCI methods for health big data mining;
- AI for enhancing safety, quality, access and efficiency of care;
- Personal health information management;
- Network processes and digital epidemiology;
- Health misinformation on social media;
- Sensing technologies and wearable devices for health applications.

Special Issue

Editor-in-Chief

Prof. Dr. Willy Susilo
School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.
Journal Rank: CiteScore - Q2 (*Information Systems*)
