Message from the Guest Editors

Dear Colleagues,

Computer Science and Systems is a FedCSIS track aiming at synergy between applicable, technical, and theoretical aspects of computer science and related disciplines sourced in artificial intelligence. The CSS track spans themes ranging from hardware issues, computer engineering via software issues and communication issues of interest to distributed, smart, multimedia, network systems and innovative applications of artificial intelligence. As chairs of this track, we have the pleasure to present a collection of selected papers with outstanding quality in idea and innovative thinking.

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [ESCI \(Web of Science\)](#), [Ei Compendex](#), [dblp](#), and [other databases](#).
