Message from the Guest Editors

Dear Colleagues,

This Special Issue aims to attract a combination of research articles that convey new security and privacy technologies, educational survey articles that help advance the adoption and practice of cybersecurity technologies by the broader healthcare community, and informative articles that cross the boundaries between public and legal aspects related to cybersecurity and privacy in healthcare.

The goal of this Special Issue is to strengthen the relationship between the security/privacy research and the development community and those in the healthcare and medical practice communities, with the ultimate objective being to lead to better solutions and practices to protect patients and their private information.

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [ESCI \(Web of Science\)](#), [Ei Compindex](#), [dblp](#), and [other databases](#).

Journal Rank: [CiteScore - Q2 \(Information Systems\)](#)
