

## Sustainable Infrastructures for Urban Mobility

Guest Editors:

**Dr. Benedetto Barabino**

Department of Civil Engineering,  
Architecture, Land, Environment  
and Mathematics, University of  
Brescia, 25121 Brescia, BS, Italy

**Prof. Dr. Giulio Maternini**

Department of Civil Engineering,  
Architecture, Land, Environment  
and Mathematics, University of  
Brescia, 25121 Brescia, BS, Italy

**Dr. Roberto Ventura**

Department of Civil Engineering,  
Architecture, Land, Environment  
and Mathematics, University of  
Brescia, 25121 Brescia, BS, Italy

Deadline for manuscript  
submissions:

**31 December 2024**

### Message from the Guest Editors

This Special Issue is based on the XXVI International Conference “Living and Walking in Cities” (LWC), held from 6 to 8 September 2023 in Brescia, Italy.

This Special Issue not only features selected papers from the LWC Conference but also welcomes high-quality contributions from the broader research community. It aims to offer an interactive platform for researchers and practitioners to present and discuss new and emerging ideas. The exploration of new challenges in infrastructure design and management is central, with sustainability intrinsic to this. Specifically, the Special Issue seeks to investigate various topics, including novel models, methods, systems, and tools that are applicable to infrastructural assets. This encompasses techniques for accident analysis, procedures for risk assessments and management, economic evaluations, and infrastructures for the optimization of public transport. Innovative elements such as Intelligent Transportation Systems, Machine Learning, and Big Data Analytics, which may be applied in real-world settings, are also of interest.

an Open Access Journal by MDPI

## Editor-in-Chief

### **Dr. Pedro Arias-Sánchez**

Applied Geotechnologies Group,  
Department of Natural Resources  
and Environmental Engineering,  
School of Mining Engineering,  
University of Vigo, 36310 Vigo,  
Spain

## Message from the Editor-in-Chief

You are invited to contribute a research article, review or short communication for consideration and publication in *Infrastructures* (ISSN 2412-3811). There is no restriction on the length of the papers. *Infrastructures* is published in open access format. The scientific community and general public have unlimited free access to the content as soon as it is published. *Infrastructures* is supported by the authors by the payment of article processing charges for accepted manuscripts. Please consider *Infrastructures* as an exceptional opportunity to publish your work.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, ESCI (Web of Science), Inspec, and other databases.

**Journal Rank:** CiteScore - Q2 (*Building and Construction*)
