Message from the Guest Editors

This Special Issue will publish the proceedings from the “19th International Conference on Calorimetry in Particle Physics” (CALOR2022, University of Sussex, Brighton, UK, May 16–20, 2022). This Special Issue of *Instruments* will document the conference proceedings on the recent developments in calorimeters and calorimetric techniques achieved during the last few years.

Message from the Editor-in-Chief

The realization of dedicated instrumentation has always been a collateral aspect of experimental research. In addition, many groups dedicate efforts and resources solely to the development of new devices, sensors, equipment and large infrastructure, theoretical and numerical studies, and novel experimental methodologies. With Instruments we wish to address both established and emerging communities, also to favor the creation of innovative trans-disciplinary approaches. We see Instruments as an exciting high-impact journal that will soon hold a leading position in disseminating cutting edge scientific and technological research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, Inspec, CAPlus / SciFinder, INSPIRE, and other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 5.4 days (median values for papers published in this journal in the second half of 2023).
