Deadline for manuscript
submissions:

20 July 2024

Message from the Guest Editor

Dear Colleagues,

At present, neurological disorders are characterized by the need to find new solutions for their management—both from an epidemiological perspective, and for progress in the field of diagnostic, pharmacological, symptomatic and rehabilitative therapies. We have been diagnosing so-called millennials with neurological diseases for some years now. It is, therefore, the duty of science to explore new tools for diagnosis, management and future approaches, which is precisely the goal of this Special Issue on “Innovative opportunities in neurological diseases diagnosis, management and therapy”.

Message from the Editor-in-Chief

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Medicine, General & Internal*) / CiteScore - Q1 (*General Medicine*)
