Challenges in Hand and Upper Limb Surgery

Guest Editor:

Dr. Sebastian Farr
Associate Professor, Department of Pediatric Orthopaedics and Foot and Ankle Surgery, Orthopaedic Hospital Speising, Speisinger-Strasse 109, A-1130 Vienna, Austria

Deadline for manuscript submissions:
closed (25 January 2024)

Message from the Guest Editor

The human hand is a highly sophisticated yet fascinating organ, whose pathologic affection can cause severe morbidity. While children can be born with a variety of congenital hand differences, the spectrum of hand disorders ranges from trauma and posttraumatic deformities to infection, neurologic hand problems (e.g., caused by cerebral palsy, brachial plexus injury) and overuse and arthritis-related issues. The present Special Issue aims to summarize the current understanding of hand and upper limb disorders “from the cradle to the grave”. The multidisciplinary approach that is often needed to adequately address these problems will offer healthcare professionals insight into its complexity, provide understanding, and promote strategies. Submissions for this Special Issue should therefore involve original research articles, systematic reviews and nonsystematic (narrative) reviews on the different aspects of hand and upper limb surgery, including its aetiology/genetics, diagnosis (clinical tests, arthroscopy, radiology), and surgical and nonoperative care, regardless of the medical discipline.

Prof. Dr. Emmanuel Andrès
Internal Medicine Department, University Hospital Strasbourg, 67000 Strasbourg, France

Message from the Editor-in-Chief

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine*'s (*JCM*) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.
Journal Rank: JCR - Q2 (*Medicine, General & Internal*) / CiteScore - Q1 (*General Medicine*)
