Deadline for manuscript
submissions:

31 May 2024

Message from the Guest Editors

Dear Colleagues,

We are organizing a Special Issue (SI) on the new insights in diabetes mellitus. We invite the submission of manuscripts (original research or review articles) about the pathophysiological concepts of all types of DM. In addition, we welcome critical remarks on the current criteria of diagnosis of DM. We want to include the pharmacological and non-pharmacological therapeutic options, evidence-based treatment algorithms, and novel experimental therapies. We encourage the authors to focus on prophylaxis and reducing complications strategies. In the field of environmental research, we seek papers about social, economic, and cultural changes in public health. We call for manuscripts about specific groups of patients, such as pregnant women, adolescents, older patients, and patients with comorbidities. Due to the COVID-19 pandemic, we will publish overviews and meta-analyses about the implication of the viral infection on the course of DM. The latest achievements in molecular biology, for example, assessment of gut microbiome, for this metabolic disorder are anticipated. Papers combining a high academic standard with a practical focus are especially welcome.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Medicine, General & Internal*) / CiteScore - Q1 (*General Medicine*)
