Deadline for manuscript  
submissions:

**20 June 2024**

### Message from the Guest Editors

Atrial fibrillation (AF) is the most common arrhythmia worldwide and its prevalence is dramatically increasing. Despite technological advantages and upcoming new ablation strategies, ablation rates are still suboptimal. Several non-invasive measures and prevention are required to increase AF therapy success.

The aim of this Special Issue is to provide a comprehensive summary of possible approaches for arrhythmia prevention and non-invasive (pharmalogical)/interventional techniques for AF therapies. Colleagues and researchers working in the field of prevention and clinical electrophysiology are welcome to submit original articles or reviews to this Special Issue.

## Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Medicine, General & Internal*) / CiteScore - Q1 (*General Medicine*)
