Deadline for manuscript submissions:

closed (15 April 2024)

Message from the Guest Editor

Multiple sclerosis is an inflammatory, autoimmune-mediated chronic disease that affects the central nervous system in young adults. Despite extensive research, its exact etiology remains unknown, but there has been great progress in understanding its pathogenesis. Similarly, cutting edge technology has been introduced for the discovery of novel diagnostic tools and new drugs targeting different aspects of complex pathogenic mechanisms.

This special issue will focus on recent advances in the pathogenesis, diagnostic/disease monitoring methods, and treatment of MS. We plan to include reviews (updates on the pathogenesis of MS, prodromal multiple sclerosis, biomarkers, high field MRI imaging, novel drugs in the pipeline) and original papers detailing novel biomarkers and clinical research.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Medicine, General & Internal*) / CiteScore - Q1 (*General Medicine*)
