Message from the Guest Editor

The continuous development of optical coherence tomography (OCT) in the ophthalmology field has revolutionized its clinical practice. In the beginning, it was developed for ophthalmology with the aim of evaluating the posterior segment, mainly the macula and the optic nerve. Shortly after, it was employed for the assessment of the anterior segment, expanding its usefulness and resulting in focused study of the cornea, anterior chamber, and iridocorneal angle. Through OCT, it is now possible to examine structures that were previously difficult to assess, such as the choroid, vitreous, lens, extraocular muscles, or ciliary muscle.

This Special Issue aims to present selected original research papers and review articles that discuss the current state-of-the-art, address existing knowledge gaps, and present the clinical utility of such advances in OCT, focusing on their clinical impacts on the management of different ophthalmological diseases.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access:— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

Journal Rank: *JCR - Q2 (Medicine, General & Internal)* / *CiteScore - Q1 (General Medicine)*
