Message from the Guest Editor

Dear Colleagues,

COVID-19 is a pandemic that has forced many countries to implement various restrictive measures to prevent its spread. These restrictive measures and quarantine periods have caused an increase in anxiety crises, fear of contagion and post-traumatic stress disorder (frustration, boredom, isolation, fear, insomnia, difficulty concentrating).

Although only a few years have passed since the beginning of the COVID-19 pandemic, a large body of scientific literature is already present on the impact that the worldwide spread of the virus has had on people's quality of life.

The COVID-19 pandemic represents a catastrophe of global dimensions, the first traumatic event on a global scale in the most recent history of humanity.

Many studies have reported a post-traumatic stress disorder (PTSD) element during the COVID-19 pandemic.

We welcome manuscripts on the impact of the COVID-19 emergency on the quality of life of the general population, children and people with disabilities.

We will be happy to review your contributions to our Special Issue in the *Journal of Clinical Medicine*.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Medicine, General & Internal*) / CiteScore - Q1 (*General Medicine*)
