### Message from the Guest Editors

Dear Colleagues,

Sudden death can be the first manifestation of a lot of pathological conditions. Novel algorithms for the identification of sudden cardiac death risk have been proposed, but more efforts are necessary to avoid this dramatic event. On the other hand, overtreatment, particularly in young patients, is not necessarily beneficial and must be avoided. A tailored and multidimensional approach, involving clinical, genetic and imaging findings, is required and represents our goal in the next few years.

This Special Issue of *Journal of Clinical Medicine*, “Recent Advancement and Challenges in Cardiac Arrhythmias”, will focus on recent improvements and findings in the field of risk stratification for sudden death. Furthermore, papers are welcome that summarize the current state of knowledge related to specific diseases, underlining potential gaps in our evidence.

## Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Medicine, General & Internal*) / CiteScore - Q1 (*General Medicine*)
