submissions:

closed (30 November 2023)

Message from the Guest Editor

Dear Colleagues,

It is my pleasure to invite you and your research group members to contribute to this Special Issue. This is one new volume, with more than 10 papers published in the first volume. For more details, please visit: https://www.mdpi.com/journal/jcm/special_issues/hearing_disor

Hearing loss represents one of the most wide-ranging disabilities, affecting more than 5% of the world's population. Different types of hearing loss, including conductive and sensorineural hearing loss, may lead to serious hearing impairments in children and adults. Diagnosis and management continue to be a challenge for hearing disorders such as chronic otitis media, otosclerosis, cholesteatoma, congenital or acquired sensorineural hearing loss, sudden sensorineural hearing loss, autoimmune or metabolic hearing loss, and otogenic facial palsy. New treatment options will be discussed to improve potential methods of hearing restoration. We especially encourage submissions concerning hearing aids, cochlear/vestibular/auditory brainstem implantation, middle ear surgery, and stapedotomy.

Dr. George Psillas

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Medicine, General & Internal*) / CiteScore - Q1 (*General Medicine*)
