Sclerosis Center, University of
Foggia, Foggia, Italy

Deadline for manuscript
submissions:

25 July 2024

Message from the Guest Editor

Dear Colleagues,

It is a great pleasure and honor to invite you to contribute a paper to this Special Issue of the *Journal of Clinical Medicine* on Multiple Sclerosis.

Multiple sclerosis (MS) is an autoimmune-mediated neurodegenerative disease of the central nervous system characterized by chronic inflammatory demyelination and axonal transection. MS typically presents during young adulthood and can lead to physical disability and cognitive impairment resulting in a general reduction in patients' quality of life. The McDonald Criteria (2017) enable the early diagnosis of MS if compared to the past, based on a combination of signs and symptoms, MRI and laboratory findings. This provides an opportunity to commence treatment that evidences high efficacy from the very beginning. The advanced and correct clinical management of the disease could improve the outcomes and quality of life of MS patients.

The aim of this *JCM* Special Issue, entitled “*Multiple Sclerosis: Diagnosis, Treatment and Clinical Management*”, is to provide an overview of the latest advancements in the diagnosis and treatment of this disease.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Medicine, General & Internal*) / CiteScore - Q1 (*General Medicine*)
