Deadline for manuscript
submissions:

closed (25 March 2024)

Message from the Guest Editor

Dear Colleagues,

The Special Issue "Current Therapy in Thoracic Surgery" is a collection of articles that seeks to highlight the latest trends in the field of thoracic surgery and the evidence underpinning them. It aims to inform and challenge decisions in current clinical practice across the breadth of our specialty.

The issue welcomes a wide range of topics related to the diagnosis, treatment and management of thoracic surgical disease in contemporary and emerging practice. This includes benign and malignant disease, perioperative care, trauma, patient-important outcomes and surgical education.

Submissions of original research and literature synthesis are welcome.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPUS / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Medicine, General & Internal*) / CiteScore - Q1 (*General Medicine*)
