Message from the Guest Editor

Dear Colleagues,

Presently, polycystic ovarian syndrome (PCOS) is one of the most challenging reproductive and endocrine diseases in women of childbearing age. The pathomechanism of PCOS is complex, and its clinical manifestations are diverse. To date, researchers have found that incidences of PCOS are associated with a wide range of factors, and no radical cures have yet been identified. The aim of this Special Issue is to demonstrate the pathogenesis of PCOS and clarify its diagnostic criteria. Above all, we truly hope to provide more possibilities for the treatment of PCOS in the future. In this Special Issue, we heartily invite researchers to share their findings or opinions on the aetiology, diagnosis, and treatment of PCOS, in addition to comments and considerations on future perspectives, in the form of either original articles or reviews.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Medicine, General & Internal*) / CiteScore - Q1 (*General Medicine*)
