submissions:

15 June 2024

Message from the Guest Editors

Dear Colleagues,

In recent years, there has been a notable increase in the rates of orthopedic and trauma surgeries. Advances in increasingly accurate and thorough imaging, minimally invasive surgical procedures, such as arthroscopy or percutaneous fracture fixation, and in rehabilitation protocols have revolutionized treatment approaches by offering reduced postoperative pain, faster recovery times, and improved functional outcomes. However, this field also faces certain challenges. Continued innovation and research efforts are crucial for further enhancing the field of trauma and orthopedic surgery.

This Special Issue aims to provide an opportunity to explore recent advancements in trauma and orthopedic surgery while highlighting the challenges encountered in clinical research. Therefore, we cordially invite authors and specialists in the field to share their experiences and submit their reviews or original research articles that fit within the scope of this Special Issue.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Medicine, General & Internal*) / CiteScore - Q1 (*General Medicine*)
