Message from the Guest Editors

Dear Colleagues,

We currently serve as the Guest Editors of the new Special Issue, “Coronary Angiography: Recent Advances in Cardiovascular Imaging”, to be published in the *Journal of Clinical Medicine* (IF 2022: 4.964). Invasive coronary angiography remains the main tool for diagnosing coronary artery disease. The better comprehension of pathophysiology of coronary artery disease and the progress of biomedical technology has given us the opportunity to use multiple techniques for achieving intravascular imaging of coronary arteries. Intravascular ultrasound (IVUS) and Optical Coherence Tomography (OCT) are the two approaches used for the evaluation of coronary plaques and percutaneous coronary interventions optimization. The aim of this special issue is to present the recent advances in intracoronary imaging.

Dr. Grigorios Tsigkas

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Medicine, General & Internal*) / CiteScore - Q1 (*General Medicine*)
