Message from the Guest Editors

Dear Colleagues,

In recent decades, the role of imaging in ophthalmology has aroused increasing interest due to the advent of novel diagnostic tools that are aiming at an early diagnosis and a change in the approach of patient management. Such advances allow physicians of different medical subspecialities to start collaborations with ophthalmologists, to recognize and treat systemic diseases through concerted efforts.

This Special Issue aims at creating a multidisciplinary forum of discussion about the role of retinal and optic nerve imaging and its application in ophthalmic diseases and clinical medicine. Given the success obtained from the first edition of this Special Issue, we decided to repropose this topic.

Accepted papers will describe new developments in these areas. This Special Issue invites high-quality articles containing original research results as well as review articles of exceptional merit.

Prof. Dr. Rodolfo Mastropasqua

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal’s full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

**Open Access:**— free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Medicine, General & Internal*) / CiteScore - Q1 (*General Medicine*)
