**Dr. Felix Hennig**

Deadline for manuscript  
submissions:

**1 November 2024**

### Message from the Guest Editors

Dear Colleagues,

Heart failure remains a significant global health burden, demanding the continuous refinement of diagnostic approaches, therapeutic strategies, and patient care paradigms. Moreover, cardiac transplantation stands as a life-saving intervention for end-stage heart failure patients, but it also presents complex challenges in patient selection, donor allocation, immunosuppressive management, and long-term outcomes.

This Special Issue aims to bridge the gap between evidence-based medicine and clinical practice. We welcome submissions that span various aspects of cardiovascular medicine and aim to delineate diagnostic and therapeutic approaches as well surgical techniques and personalized transplant protocols. This call for papers presents an opportunity to contribute to a comprehensive exploration of the evolving landscape of cardiovascular medicine, fostering dialogue, collaboration, and ultimately advancements in patient care. We look forward to receiving your submissions and collectively shaping the future of heart failure and cardiac transplantation research.

## Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPUS / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Medicine, General & Internal*) / CiteScore - Q1 (*General Medicine*)
