Message from the Guest Editors

In this Special Issue titled “Diabetes, Physical Activity and Exercise”, we are seeking original data and reviews on type 1 and type 2 diabetes covering topics including but not limited to the following:

- Glycemic management around physical activity and exercise;
- Chronic metabolic and cardiovascular effects of physical activity and exercise;
- Interplay of pharmacological treatment and physical activity and exercise;
- Considerations of dietary interventions and physical activity and exercise;
- Physical activity, exercise and mental health;
- Hypoglycaemia, hypoglycaemia unawareness and physical activity;
- Physiological aspects of physical activity and exercise;
- Technology, physical activity and exercise.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPUS / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Medicine, General & Internal*) / CiteScore - Q1 (*General Medicine*)
