submissions:

8 May 2024

Message from the Guest Editors

Dear Colleagues,

This Special Issue welcomes research articles, systematic reviews and conceptual and methodological papers on the effects of early interventions—with a focus on the first three years of life—on child and family outcomes. Interventions include diagnostic audiology and audiological interventions, medical evaluation and management (otorhinolaryngology, pediatrics, genetics, developmental and behavioral pediatrics) and educational early interventions and family support. Contributions that elaborate the impact of multi-dimensional interventions are particularly encouraged. Furthermore, studies on interventions in children with hearing loss and comorbidities (e.g., syndromal, neurodevelopmental, psychosocial) are highly welcome.

Dr. Daniel Holzinger

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPUS / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Medicine, General & Internal*) / CiteScore - Q1 (*General Medicine*)
