### Message from the Guest Editors

Dear Colleagues,

Pituitary disorders may be associated with significant morbidity and may require the use of multiple treatment modalities. As in other disciplines of medicine, the field of pituitary disorders has undergone rapid advances and these have transformed our understanding of important principles underlying normal and abnormal pituitary function, as well as our approach to the management of pituitary disorder. This Special Issue will focus on current and future medical treatment options for patients with various pituitary disorders, including functional and non-functional pituitary adenomas. Experts in the field of medical treatment of pituitary disorders will provide updates on the management and outcomes of the available and new and emerging therapies.

Prof. Dr. Ilan Shimon

Dr. Amit Akirov

## Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Medicine, General & Internal*) / CiteScore - Q1 (General Medicine)
