submissions:

31 December 2024

Message from the Guest Editors

Dear Colleagues,

I am serving as the Guest Editor of the Special Issue “Advances in Optical Coherence Tomography and its Implications”, which will be published in the Journal of Imaging (ISSN 2313-433X; Impact Factor 3.2), and I would like to invite you and your group to contribute to this Special Issue.

This Special Issue aims to bring together articles that focus on the advances of OCT in the diagnosis and evaluation of any retinal disease (e.g., age-related macular degeneration, diabetic retinopathy, retinal vein occlusion, hereditary retinal dystrophies) and how it can influence treatment decisions, with special emphasis on the new treatments available, biomarkers, and differential diagnosis, while reflecting innovative research and new ideas.

Message from the Editor-in-Chief

The imaging term, specific with journal, is to be considered in its broadest sense. Image processing, image understanding and computer vision are all terms related to imaging acquisition, its processing and the extraction of relevant information from the scene to obtain the underlying knowledge. All tasks related to the above items are oriented toward specific applications in a broad range of areas and topics. The *Journal of Imaging* is conceived as an efficient vehicle in the scientific community for the communication and transmission of the progress and research results in the topics covered.

Author Benefits

Open Access:— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), PubMed, PMC, dblp, Inspec, Ei Compendex, and other databases.

Journal Rank: CiteScore - Q2 (*Computer Graphics and Computer-Aided Design*)
