

## RISC-V Architectures and Systems: Hardware and Software Perspectives

Guest Editors:

**Dr. Teresa Cervero**

**Dr. Kevin Martin**

**Dr. Mario Kovač**

**Prof. Maurizio Martina**

### Message from the Guest Editors

This Special Issue aims to shed some light on some of the aforementioned topics, tackled by RISC-V-based initiatives and projects, by sharing the most recent and promising results with the research community.

Authors are invited to submit regular papers following the *JLPEA* submission guidelines, within the remit of this Special Issue call. Topics include but are not limited to:

Deadline for manuscript  
submissions:  
**closed (1 October 2022)**

- RISC-V processors, micro-architecture optimizations, and hardware accelerators;
- Edge computing and ISA extension (e.g., packed-SIMD, floating point, bit-manipulation);
- System integration, atomic memory operations, OS support (e.g., hypervisor), compiler and runtimes, containerization, and virtualization;
- Simulation and emulation, performance analysis tools, and methodologies,
- Quality assurance and reliability, design verification/validation, and security (secure architectures and cryptography).

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

Journal of Low Power Electronics and Applications (ISSN 2079-9268) is an open access journal which provides an advanced forum for the studies of electronics for low power applications. A special emphasize is made on ultralow power bio-medical applications. It publishes reviews, regular research papers and short communications.

Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers. Full experimental and/or methodical details must be provided.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, ESCI (Web of Science), Inspec, and other databases.

**Rapid Publication:** manuscripts are peer-reviewed and a first decision is provided to authors approximately 22.2 days after submission; acceptance to publication is undertaken in 4.7 days (median values for papers published in this journal in the second half of 2023).
