

Underwater Acoustics and Digital Signal Processing

Guest Editors:

Dr. Sergey Pereselkov

Head of the Department,
Department of Mathematical
Physics and Information
Technology, Voronezh State
University, Voronezh, Russia

Prof. Dr. Matthias Ehrhardt

Applied Mathematics and
Numerical Analysis, University of
Wuppertal, Wuppertal, Germany

Dr. Pavel Petrov

V.I. Il'ichev Pacific Oceanological
Institute, Far Eastern Branch
Russian Academy of Sciences,
690041 Vladivostok, Russia

Deadline for manuscript
submissions:

closed (25 October 2023)

Message from the Guest Editors

Dear Colleagues,

We invite you to take part in the Special Issue “Underwater Acoustics and Digital Signal Processing” for the *Journal of Marine Science and Engineering*. This Special Issue is intended to provide the results of original research and reviews of advances in signal processing methods used in underwater acoustics. Both theoretical and experimental papers are encouraged. This Special Issue’s objective is to present theoretical and experimental research. This Special Issue includes, but is not limited to, the following research areas:

- holography signal processing;
- matched field processing (MFP);
- linear and nonlinear time-warping;
- physics-based signal processing;
- adaptive signal processing;
- signal processing for autonomous underwater vehicles (AUVs);
- signal processing for marine mammals;
- active and passive sonar signal processing;
- signal processing in a non-stationary environment;
- signal processing for scalar sensors, vector sensors, antennas;
- signal processing for detection, localization and classification;
- underwater acoustic communications;
- experimental data signal processing results;
- numerical modelling for signal processing.

an Open Access Journal by MDPI

Environmental Sciences,
Newcastle University, Newcastle
upon Tyne NE1 7RU, UK

Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE; ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed with Scopus, SCIE (Web of Science), GeoRef, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q1 (*Engineering, Marine*) / CiteScore - Q2 (*Ocean Engineering*)
