Technology, Changsha 410114,  
China

Deadline for manuscript  
submissions:

**closed (30 September 2023)**

### Message from the Guest Editors

This Special Issue focuses on offshore engineering issues involved in the sustainable use of marine resources. The exploitation of marine resources depends on the construction of infrastructure, meaning that the construction, operation and impact of offshore projects on marine environments will affect the sustainable utilization of marine resources.

The resourceful use of marine materials instead of traditional building materials will be helpful in reducing project costs, saving energy and reducing carbon emissions. Similarly, the research and development of new energy conversion systems can improve the utilization rate of marine energy. The marine environment is complex and changeable, long-term corrosion and extreme weather will inevitably lead to project damage, resulting in energy supply interruption, energy leakage, sea area pollution and other problems. Therefore, systematic research on these issues is the key to avoiding disasters. In addition, the application of emerging digital technology to offshore engineering can effectively improve the level of intelligent marine resource utilization.

## Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE; ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed with Scopus, SCIE (Web of Science), GeoRef, Inspec, AGRIS, and other databases.

**Journal Rank:** JCR - Q1 (*Engineering, Marine*) / CiteScore - Q2 (*Ocean Engineering*)
