

Understanding Impacts of Marine Renewable Energy Structures on Nearshore Dynamics and/or the Environment

Guest Editor:

Dr. Remo Cossu

School of Civil Engineering,
University of Queensland,
Brisbane, QLD 4072, Australia

Deadline for manuscript
submissions:

closed (30 June 2021)

Message from the Guest Editor

The purpose of the invited Special Issue is to publish the most exciting research with respect to the above subject (see also topics and keywords below) and to aim for a rapid turnaround time regarding reviewing and publishing. The published articles can be disseminated freely for research, teaching, and reference purposes. High-quality papers are encouraged, for publication, directly related to various aspects of wave and tidal energy production, for instance:

- Effects on sediment transport processes and coastal erosion
- Assessment methods and analytical techniques for resource and impact assessment
- Monitoring technology and strategies
- Numerical and physical modelling
- Seabed–structure interaction
- Effects on flora and fauna
- Case studies

an Open Access Journal by MDPI

Editor-in-Chief

upon Tyne NE1 7RU, UK

Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE; ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed with Scopus, SCIE (Web of Science), GeoRef, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q1 (*Engineering, Marine*) / CiteScore - Q2 (*Ocean Engineering*)
