Message from the Guest Editors

Dear Colleagues,

Scientific and societal concern about the effects of underwater sound on marine ecosystems is growing. Some countries have joined in multi-national initiatives to measure, monitor and mitigate environmental impacts of ocean noise at large, trans-boundary spatial scales.

The OCEANOISE conference series has provided a platform for the exchange of scientific results, management approaches, research needs, stakeholder concerns, etc. As this year's conference was cancelled, a Special Issue of the Journal of Marine Science and Engineering is announced as a means of keeping the OCEANOISE community engaged.

We invite the submission of research articles, review papers, as well as opinion papers and commentaries relevant to the management of ocean noise. Focus may be on sound usage by marine and freshwater organisms; soundscapes; sound measurement, modelling and mapping; behavioural, physiological and pathological effects of noise; regulation and mitigation.

We look forward to receiving your manuscripts.

Prof. Dr. Michel André

Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE; ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed with Scopus, SCIE (Web of Science), GeoRef, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q1 (*Engineering, Marine*) / CiteScore - Q2 (*Ocean Engineering*)
