## Message from the Guest Editor

Dear Colleagues,

We are pleased to announce the launch of a new Special Issue on "Feature Papers in Ocean Engineering", with the aim of contributing to the publication of high-quality research on all the main aspects of Ocean Engineering—from ocean wave modelling aspects (ocean wave motion, fluid–structure interactions and tsunamis, etc.) to seabed mechanics and sediment transport, marine geotechnics and geohazards, ocean energy (offshore wind, wave energy, tidal current and combined marine energy) and field studies in ocean or marine environments. Submissions of original and high-quality research on all the abovementioned branches of ocean engineering are encouraged.

### **Message from the Editor-in-Chief**

The Journal of Marine Science and Engineering (JMSE; ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

#### **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed with Scopus, SCIE (Web of Science), GeoRef, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q1 (Engineering, Marine) / CiteScore - Q2 (Ocean Engineering)
