Message from the Guest Editor

Dear Colleagues,

Over the past 30 years, optical coherence tomography (OCT) imaging has shown great potential in diverse applications in medicine, notably in ophthalmology, improving our knowledge on many aspects of ocular physiology and pathophysiology where it can be used to obtain detailed images of the eye. OCT and OCT Angiography (OCTA) are now a standard of care for diagnosis and monitoring of anterior and posterior segment diseases, and it fosters a better understanding of the pathogenesis of several ocular conditions. Submissions are welcome primarily for high-quality original research and review articles showing new developments, applications and findings about OCT imaging in ocular disease.

Dr. Marc Biarnés

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM; ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, ‘omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Author Benefits

Open Access:— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, and other databases.

Journal Rank: JCR - Q2 (*Medicine, General & Internal*) CiteScore - Q2 (*Medicine (miscellaneous)*)
