Emirates

Deadline for manuscript  
submissions:

**23 March 2024**

### Message from the Guest Editors

Gastroenterology and endoscopy clinical services have significantly improved because of research advancements in recent decades. There has been a significant investment in research aimed at better diagnosis and treatment of many conditions. This has helped toward better surveillance and understanding of the diseases' progression, with potential direct clinical benefits in prevention and early treatment, especially in cancer screening programs. At the same time, there are several challenges that face full implementation of endoscopy screening programs and technology in countries with limited resources, leading to inequality of care provided to patients.

This Special Issue of the *Journal of Personalized Medicine* aims to highlight the current state of endoscopy practice and showcase some of the most cutting-edge technologies and advancements in the field with a focus on the application of artificial intelligence and the use of patient-reported outcomes measures to enhance healthcare provided to patients. It will also cover the challenges of properly implementing endoscopy practice in resource-constrained settings.

an Open Access Journal by MDPI

## Editor-in-Chief

### Prof. Dr. David Alan Rizzieri

1. Senior Vice President and Director, Novant Health Cancer Institute, Winston-Salem, NC 27103, USA

2. Professor of Medicine Chief, Section of Hematologic Malignancies, Associate Director for Clinical Research, Division of Hematologic Malignancies and Cellular Therapy Duke Cancer Institute, Durham, NC 27710, USA

## Message from the Editor-in-Chief

*Journal of Personalized Medicine (JPM; ISSN 2075-4426)* is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, ‘omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

## Author Benefits

**Open Access:**— free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, and other databases.

**Journal Rank:** JCR - Q2 (*Medicine, General & Internal*) CiteScore - Q2 (*Medicine (miscellaneous)*)
