

Molecular Neurobiology of Neurodegenerative Diseases

Guest Editors:

Dr. Ignazio Stefano Piras

Translational Genomics Research
Institute, Phoenix, AZ, USA

Dr. Valerio Napolioni

School of Biosciences and
Veterinary Medicine, University of
Camerino, Camerino, Italy

Deadline for manuscript
submissions:

closed (15 November 2021)

Message from the Guest Editors

Despite the large-scale studies conducted so far, a deeper knowledge is further needed to help in translating the recently discovered molecular mechanisms into clinical settings, from the development of early diagnosis biomarkers to the development of new pharmacological treatments.

We are inviting the submission of original articles to this Special Issue of the *Journal of Personalized Medicine* that report new findings in the molecular neurobiological bases of neurodegenerative diseases, coming from omics-based approaches (e.g., from genomics to proteomics) or from functional studies (e.g., in vitro and in vivo studies).

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM; ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, ‘omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, and other databases.

Journal Rank: JCR - Q2 (*Medicine, General & Internal*) CiteScore - Q2 (*Medicine (miscellaneous)*)
